Dear Avleen,

Thank you for applying for student travel subsidy to attend the CMS 2022 summer meeting. Due to our limited budget, and the number of applicants, the amount of subsidy does not allow to subsidize all of your travel. Your application has been approved for a maximum subsidy of \$150. A travel claim form will be included in your registration package at the meeting. You can either complete and return it with original receipts to the registration desk, or mail it upon your return. Details are included on the claim form.

I am happy to answer any questions you may have.

Regards!
