Thanks Avleen!

And thank you for the great term! You are definitely one of the best math professors I have had in university.

Hi Megan,

Thanks for getting in touch.
I have replied now on Piazza.

All the best for the test!

Regards,
Avleen

Hi Avleen,

I posted a question on piazza, but it is kind of buried in the feed so you probably didn't see it. I was just wondering for the 2015 final Q3, why the x^3 is taken off when creating the series?

Thanks,
Megan
