Dear Avleen.

On behalf of the organizers for WCLAM 2023, it is my pleasure to be able to offer you \$500 towards supporting your travel and local expenses.

Of course, I had hoped to be able to offer more support, but our budget has been squeezed due to financial difficulties at my institution, and they were numerous requests for support from participating students and postdoctoral fellows.

Please confirm as soon as you are able that you will accept this support and that you will be presenting your submitted lecture as planned.

Thank you and I wish you all the best.

Dr. Shaun Fallat
Professor
Math & Stats
University of Regina

Dear Dr. Fallat,

I hope you are doing well.

I would like to give a talk at WCLAM entitled, "Unraveling the Friedrichs Angle: A Key to Lower bounds on the Minimum Singular Value." Please find the abstract for my talk attached to the email.

I am a postdoctoral fellow at the University of Saskatchewan. I will attend an informal dinner on the evening of May 27.

Thanks a lot.

Regards,
Avleen Kaur
Postdoctoral Fellow
University of Saskatchewan
