---

Hi Avleen,

I just wanted to say thank you for all your help this semester! You have made this class quite enjoyable, I was very nervous to start the class but you have made it quite enjoyable and very fair! Your testing has honestly made me feel so much more confident with math and taking math tests! I'm super nervous for tomorrow. But let's hope it goes well!

Again, thank you for teaching this semester, it's been fun!

-Autumn Garnham
